Good job! Keep training, working hard, and building those acting muscles. I'd love to see more reactions and more life behind your eyes so we can really see what your character is thinking and feeling, even when you aren't speaking. Also, give yourself permission to have more fun in the scene! Play, explore, and enjoy the work rather than worrying about getting everything "right." Keep at it!

INDIE

Arcturus. Great job! I really enjoyed watching your performance and seeing your personality come through in the scene. You have a wonderful natural quality, and I'd love to arrange a Zoom meeting with you and your family to get to know you better and discuss representation.

Good frame, but blurry and need better lighting.

This helps show your eyes/ face more!

You can tell you have passion!

Natural, good expressions and keep it up!

I love that you're working with your sibling and taking it as seriously as you would've with anyone else. You are so sweet! I really enjoyed the attitude you gave your character as it was age appropriate, funny, believable and soooo fun to watch! You are filled with potential so please keep up the training as you have an exciting future ahead of you!

Adorable. Don't feel like you have to nod your head every time you make a point. Take your time and listen to your scene partner when it's not your lines.

Adorable duo. I found the eyeline thing distracting and the fact that he didn't look her in the eyes once while delivering his lines was not ideal for me. Nice potential - that face is everything!! ;)

How adorable was "Hunger Strike" loved your delivery on this each time you said it. Great laugh and wow that was a lot to memorize. Lovely work!
