Great look and there were some lovely moments in this scene but I think it felt a bit forced and over performed and "big." I wanted to see the scene happen to the character in real time but that part was missing for me.

INDIE

Ava, I enjoyed both of your performances! I'd love to arrange a Zoom meeting to discuss representation across Canada and learn more about your goals as an actor. Looking forward to connecting

Really solid intensity throughout! I would have loved to see a more subtle build at the beginning rather than starting at 100 right away. Give yourself somewhere to go. If you allow the tension and emotion to gradually build, those bigger moments will have even more impact when you finally reach them. Strong work overall!

Great emotions, anger and frustration.

Fantastic work, and very believable.

Keep up the great work! One of my favourite auditions!

I believed your anger, I would love to see another scene with a softer side because this was really strong and am interested in speaking about working together.

You don't have an agent yet?? You will soon I bet! You are FILLED with talent Ava. I was very impressed today. You showed no fear, you were 100% committed to your character and you were completely immersed in the scene that kept it extremely believable. Your delivery was very genuine and your reacting & listening skills are superb. Was this even a scripted scene? It seemed so ridiculously real - wow! You are going to be a star and I'm so glad I got to see your work today. I will keep my eye on you for future projects :)

Great job! Hold back a bit before you drop the line "you just wanted him" it's a bomb, it's something you've been wanting to say. You can also have moments where your anger takes a little bit of a backseat to your feigned confidence as you come up with new ideas of what you are going to tell people about what she did. Scare her with your confidence. Don't give it all away. in anger.

Wow! She had to go 0 to 100 in seconds. Impressive. Nice showcase scene for her. She kept the scene simple and grounded.

Okay, Claire Danes:) You have a fabulous intensity and are able to lose yourself in the role. I encourage you to find nuanced moments where your character breaks from the rage and feels something else. Lovely work!
