You were truly the anchor of this scene. Your grounded performance gave your scene partner so much to work with, and the nuance in your choices was spot-on. You listened, reacted, and stayed completely present without ever feeling like you were pushing for a moment. There's a wonderful subtlety and confidence to your work. Really strong job!

Believable performance, solid acting and good framing.

Felt the anger and sadness, and realness.

Keep it up mate!

I felt like this was right out of a movie, you were strong and vulnerable and it all felt 100% natural. Loved this!

Good timing and connection with your character. Find the right places to smile and find humor in the dark situations just like your partner is it will help make the character be even more believable. Good job!

Excellent pairing with Chanel! The quality of your video feed today was much better than I've seen in the past so thanks for making those improvements/adjustments :) It truly felt like a real conversation between a couple and I could feel your pain and frustration today throughout the scene, I loved it. You were locked in today and performing at a level that I hadn't seen from you yet so I was so proud of you Joel. Wonderful work...thank you :)

OUT OF COUNTRY

Joel, I really enjoyed watching you again! This is the fourth showcase I've seen you in , and it's been so nice to watch your journey and see how much you've grown as an actor. Your confidence and depth continue to develop, and it's always a pleasure to see what you bring to the work. Keep going—you should be very proud of how far you've come

Strong work here! I would try to make the character a little more likeable, but showing an array of emotion and thoughts. I felt like the goal of this character was to eventually let her know that you knew all along and we definitely felt how that hurt, so great work on that. The tears felt very real. It was a great moment. Wonderful work!
